**DETAILED ACTION**

1. This action is in response to an application filed on 9/25/03. There are twenty-three claims pending and twenty-three under consideration. Claims 1-23 are compound claims. This is the first action on the merits. The application concerns some Pyrimido[5,4-d]pyrimidine compounds.

***Priority***

2. The status of non-provisional parent application should also be included. Since the parent application has become a patent, please update the first sentence of the specification so "now Patent No. 6,680,384" follows the filing date of the parent application.

***Abstract***

3. To facilitate fast visual retrieval of the present Application for future Examiners, the presence of chemical formulas in the abstract is to be greatly encouraged. The Examiner suggests claim 1, including the figure.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3, 14, 18, and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. A broad range or limitation together with a narrow range or limitation that falls within the broad range or

Art Unit: 1624

limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claims 3, 14, 18, and 22 recites the broad recitation "one or two halogen atoms", and the claim also recites "particularly fluorine and/or chlorine" which is the narrower statement of the range/limitation.

***Allowable Subject Matter***

5. Claims 1, 2, 4-13, 15-17, 19-21, and 23 are allowed. Claims 3, 14, 18, and 22 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
